sandrupskumar started a call that lasted 17 mins. 02/10/2023

sandrupskumar started a call that lasted 19 mins. 04/10/2023

## Planned Tasks and Actual Tasks

MEETING DELTA (STUFF WE COULD NOT DO/FINISH)
Unfinished tasks
- Product Pages
- Ordering Items
- Creating a Notification
- Price Comparison

PROJECT REPORT
- VISION: There is a functional backend and frontend for the project. The frontend hasn't been fully implemented with all it's functionality, although, when completed, it will allow users to successfully compare prices of items between supermarkets, and order and deliver them from the Superprice website.
- FIGURES
- Backend

- GIT PUSHES/ORGANISATION

- DEPLOYMENT PIPELINE SETUP
  GITHUB Workflows build and test both the frontend and backend. The frontend
  always fails due to not being able to successfully connect to the backend.
